

This letter contains all the information for the Newbornshoot in the studio.

- Around the due date I will contact you, but of course you may also call or call me. Depending on how you are doing we will plan the shoot in. Do you give birth earlier or differently? Then please let me know as soon as possible because of the planning.
- The appointment will take place from day 6 until 11. Overdue? Day 6-8. Keep in mind that we often get more awake pictures and the baby is bigger and less flexible.
- Are you overdue? Then we will schedule the shoot between day 6 and 8 for those reasons.

The day of the shoot

- The address of the studio is Ruysdaelbaan 7 5642 JJ Eindhoven. If you navigate this you will end up at the front door, but you can't go through here by car.
- Drive through the fence (looks a bit like we are under construction). Here you can parking in front of our building, but on the street is also free parking. If you park on the lot the front door is on your right. This is the gate:

- Then you can call me so I can open the door for you. There is no bell :)
- Upon entering I will ignore the baby so they can get used to me.
- A shoot takes on average between 2 and 3 hours. It may take a while before the baby sleeps. We take our time and do not rush.
- It is important that the father (or in consultation: other assistant) remains present during the whole shoot. This for assistance and safety during the shoot.
- Children who will not be photographed during the newborn shoot are not allowed in the studio.
- We start at 10.00 hours.

Quiet

- To have a quiet and safe environment for the child and the shoot it is very important that there is peace and quiet during the shoot. Do not schedule any other appointments on the day of the shoot.
- I will prepare the styling in the colors you have indicated on the Booking Form-sheet.

Preparing the baby

- Taking a bath beforehand is always a good idea! You may also want to make sure your nails are neat and clean eyes.
- Please don't use any skin oils.
- It is nice if the baby has eaten in advance and then as best as possible awake for the shoot.
- Ideally, the baby should be bathed first and then fed.
- The baby is more likely to get hungry because of the heat during the shoot. There is always time and space for a (breast)feeding during the shoot! :)
- If possible after the last feeding before the shoot please put your child in a diaper + wrap /bathcape instead of a romper and clothes. This way I do not have to wake the baby when it sleeping.
- In some settings it may be that I photograph the child as naked as possible. Here of course I cover the genitals.
- Have you chosen a brother/sister photo or parent photo? Provide neat, clean and ironed clothes.

- For **brother/sister photos**: a white (black, or other neutral color) dress or shirt with a jeans. More than one child? If so, please wear the same color as much as possible.
- For **parent photos**: both black or neutral colored shirt or top with jeans. Preferably the same color.

In any case, always choose neutral colors and NO prints or visible logos.

During the shoot

- To keep the newborn on temperature I work with heaters. It is therefore recommended to wear thin clothing or layers on the day of the shoot!
- Be careful with children near the hot heaters.
- Children who are not in the picture are not welcome in the studio.
- It is not allowed to take pictures during the shoot.

Delivery of the photos

- After the shoot I provide a gallery with 20 edited photos. Depending on the chosen package you can choose which photos you want.
- Within 2 weeks after the appointment of the shoot, the gallery with your photos will be ready. I will send you an app to schedule an order appointment in the studio.
- During the ordering appointment you choose which memory suits you best.
- Any upgrades must be paid by Pin or cash. Please note that there is no change available in the studio.

Thank you for your trust. I will do everything to make unforgettable photos!
